-ZeroStop conversions are available on the NXS 1-4x, 2.5-10x, 3.5-15x, and 5.5-22x models. The ZeroStop is an elevation turret conversion only.

-Compact model conversions include a Windage Limiter windage turret.

-Mil-Radian turret conversions are available on the NXS 1-4x, 2.5-10x, 3.5-15x, and 5.5-22x models.

-An added benefit of conversions is that each riflescope undergoes a 100% inspection and testing on all mechanical and optical components. The service includes any updates and upgrades to meet factory-new standards. This process is completed with a 70 point inspection that ensures that current factory specifications are met; excluding repairs to cosmetics and/or external wear and tear.
