

THE SHV™ FAMILY OF RIFLESCOPES: PERFORMANCE FAR BEYOND THE PRICE.

Several well-known manufacturers have brought “affordable” riflescopes to the market in recent years, hoping to attract buyers to an inferior product with a high-end name attached. Many shooters have been less than thrilled with such purchases.

That’s because there are only two ways to lower the cost of a riflescope. One is to reduce the quality of its glass, its components, and its construction.

The second way is to build it with fewer options, yet without sacrificing quality. That is the road we took with the SHV™.

SHV™ riflescopes are designed for maximum versatility across a wide range of shooting disciplines; whether you enjoy pursuing big game, varmint shooting, or all of the above.

Shooters on a budget can now enjoy Nightforce quality at a reasonable cost. In fact, you will find that SHV™ riflescopes outperform many brands that cost much more.

That shouldn’t come as a surprise. After all, they say “Nightforce” on the side.
